Back Roads or No Roads

Moose Expedition Aluminum Side Cases

- Strong 6061 aluminum construction with 1.5mm thick walls that have been heat-treated to remove stress and improve durability
- Rectangular silhouette with angled edges for extra strength and style
- All components are pre-finished to be defect-free before assembly with stainless and aluminum rivets
- Innovative stainless steel latch/hinge system that accepts optional tumbler-style key inserts or conventional padlocks for cargo security
- Composite material top corner bumpers offer lash-down and accessory mounting points
- The bottom corner bumpers have a special shape to reduce the chance of the luggage getting snagged on obstacles
- Lids have an internal gasket and lip system, along with hardy sealant applied during wall construction, to make each bag a protective capsule from the elements
- Each case comes with a lid organizer
- Mounts easily to the Expedition side case mounts (see above) or other brand foundations
- Choose either a traditional silver or black powder-coated finish
- Three sizes available so you can match your luggage to your bike and mission
 - **Small** case measures 17.8" L x 10.6" W x 15.4" H; weighs 10.2 lb. and holds 34 liters
 - **Medium** case measures 17.8" L x 11.4" W x 15.4" H; weighs 10.3 lb. and holds 40 liters
 - **Large** case measures 17.8" L x 12.6" W x 15.4" H; weighs 10.4 lb. and holds 46 liters
