Back Roads or No Roads

Moose Expedition Aluminum Top Cases

- Strong 6061 aluminum construction with 1.5mm thick walls that have been heat-treated to remove stress and improve durability
- All components are pre-finished to be defect-free before assembly with stainless and aluminum rivets
- Sliding, stainless steel hinges permit complete lid removal for superb cargo access
- Innovative latch accepts optional tumbler-style key inserts that can be ordered to match your side case locks (or simply use conventional padlocks)
- Composite material top corner bumpers offer lash-down and accessory mounting points
- Matches the Moose Expedition side cases perfectly; select traditional silver or black powder-coat finish
- Lids have an internal gasket and lip system, along with hardy sealant applied during wall construction, to make each bag a protective capsule from the elements
- Each case comes with a lid organizer
- A variety of accessories are available separately: storage cubes, liners, lid organizers and carrying straps
- Basic mounting can be done using the universal mount; for a refined installation, use the optional model-specific adapter system along with the universal mount
- There are two sizes of Top Cases available to fit your needs
 - Short top case measures 15.4" L x 13.4" W x 7.5" H; weighs 10 lb. and holds 25 liters
 - Tall top case measures 15.4" L x 13.4" W x 12.3" H; weighs 10.1 lb. and holds 38 liters
- Matching Side Cases also available on the ProCycle.us website, DR650 page, Luggage section (www.procycle.us/bikepages/dr650.html#luggage)
- A variety of Accessories are available for these boxes as well, see the ProCycle.us website, DR650 page, Luggage section
